## 2007 PERFORMANCE SIRE RATING

### *Bourbon King Once Again Reigns Supreme*

By Sarah White

*The Bourbon King influence certainly cannot be denied again this year as almost each one can be traced back to the tail male line of Bourbon King, either through CH Anacacho Shamrock or CH Kings Genius through one of his sons, CH Ridgefields Genius and Genius Bourbon King. Also, three sets of sires and sons appear in the top 25 alone again this year, along with several pairs who share the same sire. Despite these connections between sires, the female families of the studs on this list are much more varied, showing that we do still have a good variety in the gene pool. The top female families were Crebillys Whirlwind (BHF), BHF Lady Emily, and BHF Wild Wind.*

*A successful breeding program relies on dedication and commitment to the breed as well as a clear long term vision. Attentive and smart breeding is what makes the studs on this list so successful. The studs in our top 25 are all over 14, and many are in their late 20s, which is evidence of the long term vision, commitment, and attentiveness of their breeders and breeding programs. The dedication of these breeders is vital to the future of our breed, and it is wonderful to see the variety of breeders and breeding programs as versatility is integral to the breed's future success.*
